INDEPENDENT ACCOUNTANTS' LIMITED REVIEW REPORT

April 21, 2012

To the Shareholders of Kingdom Holding Company:
(A Saudi Joint Stock Company)

Scope of review

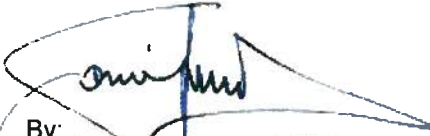

We have reviewed the accompanying consolidated balance sheet of Kingdom Holding Company (A Saudi Joint Stock Company) (the "Company") and its subsidiaries (collectively the "Group") as at March 31, 2012 and the related consolidated statements of income, cash flows and changes in equity for the three-month period then ended, and the related notes which form an integral part of these interim consolidated financial statements. These interim consolidated financial statements are the responsibility of the Group's management.

We conducted our limited review in accordance with the standard of review of interim financial reporting issued by the Saudi Organization for Certified Public Accountants. A limited review consists principally of applying analytical procedures to financial information and making inquiries of persons responsible for financial and accounting matters. The scope of the limited review is less than an audit conducted in accordance with auditing standards generally accepted in Saudi Arabia, the objective of which is the expression of an opinion on the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements of the Group for them to be in conformity with accounting principles generally accepted in Saudi Arabia appropriate to the circumstances of the Group.

KINGDOM HOLDING COMPANY
(A Saudi Joint Stock Company)
Notes to the interim consolidated financial statements
For the three-month period ended March 31, 2012 (unaudited)
(All amounts in Saudi Riyals thousands unless otherwise stated)

1 General information

Kingdom Holding Company (the "Company") is a Saudi Joint Stock Company (JSC) operating in the Kingdom of Saudi Arabia. The Company was previously formed as a limited liability company and operated under commercial registration number 1010142022 dated Muharram 11, 1417H (corresponding to May 28, 1996). The Ministry of Commerce and Industry approved, pursuant to resolution number 128/S dated Jumad Awwal 18, 1428H (corresponding to June 4, 2007), the conversion of the Company into a JSC.

The objectives of the Company are hotel management and operation, general contracting, operation and maintenance, wholesale and retail trading of construction materials, foodstuff, agriculture products and metals for non-construction and petroleum products, trading of transportation equipment, advertising, commercial services, education, medical services, commercial agencies and investment and establishment of other companies.

The principal activities and the various segments of the Company and its subsidiaries (the "Group") are described in Note 13.

The shareholders in the extra ordinary general meeting held on March 27, 2012 authorized the Board of Directors (the "Board") to perform all necessary procedures for the issuance of debt instruments such as bonds or sukuk that can be traded locally or internationally through the initiation of a debt program. These debt instruments will be issued as and when the Company requires at terms and conditions determined by the Board.

These interim consolidated financial statements were authorized for issue by the Company's Board of Directors on April 21, 2012.

2 Summary of significant accounting policies

A summary of principal accounting policies applied in the preparation of these interim consolidated financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated.

2.1 Basis of preparation

The accompanying interim consolidated financial statements have been prepared under the historical cost convention on the accrual basis of accounting, as modified by revaluation of held for trading and available-for-sale investments to fair value, and in compliance with accounting standards promulgated by Saudi Organization for Certified Public Accountants ("SOCPA").

The interim consolidated financial statements have been prepared in accordance with SOCPA's Standard on Interim Financial Reporting. The accounting policies used in the preparation of the interim consolidated financial statements are consistent with those used in the preparation of annual consolidated financial statements for the year ended December 31, 2011.

The interim consolidated financial statements include the assets, liabilities and the results of operations of the Company and its subsidiaries (the "Group"). A subsidiary is a company in which the Group has, directly or indirectly, long term investment comprising an interest of more than 50% in the voting capital or over which it exerts a practical control. A subsidiary company is consolidated from the date on which the Group obtains a practical control until the date such control ceases. Minority interests has been calculated and reflected separately in the consolidated balance sheet and consolidated income statement. Significant balances and transactions, including unrealized gains or losses on transactions, between the Group companies have been eliminated in the interim consolidated financial statements.

The interim consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual consolidated financial statements as at December 31, 2011. In the opinion of management, the interim consolidated financial statements reflect all adjustments (which include normal recurring adjustments) necessary to present fairly the results of operations for the interim period presented.

The Group's interim results may not be indicative of its annual results of the operations.

KINGDOM HOLDING COMPANY
(A Saudi Joint Stock Company)
Notes to the interim consolidated financial statements
For the three-month period ended March 31, 2012 (unaudited)
(All amounts in Saudi Riyals thousands unless otherwise stated)

2.2 Critical accounting estimates and judgments

The preparation of interim consolidated financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported balances of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Although these estimates and judgments are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

In preparing these interim consolidated financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements for the year ended December 31, 2011.

2.3 Assets held for sale

The Group considers properties to be assets held for sale when management approves and commits to a formal plan to actively market a property or group of properties for sale and it is probable that the sale will close within twelve months of the balance sheet date. Upon designation of an asset held for sale, the Group records the carrying value of each property or group of properties at the lower of its carrying value or its estimated fair value, less estimated cost to sell. Assets once classified as held for sale are not depreciated or amortized.

2.4 Investments

(a) Held for trading investments

Held for trading investments in readily marketable securities, which are purchased for trading purposes, are stated at market value and included under current assets. Changes in market value are credited or charged to the consolidated income statement.

(b) Investment in available for sale investments

Investments intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity are classified as available for sale. Such investments are included in non-current assets unless management has expressed intention of holding the investment for less than twelve months from the balance sheet date, in which case they are included in current assets. After initial recognition, investments purchased neither with the intention of being held to maturity nor for trading purposes are re-measured at fair value as follows:

- (i) Fair values of quoted securities are based on available market prices at the reporting date adjusted for any restriction on the transfer or sale of such investments; and
- (ii) Fair values of unquoted securities are based on a reasonable estimate determined by reference to the current market value of other similar quoted investment securities or is based on the expected discounted cash flows.

Unrealized gains and losses are reported as a separate component of shareholders' equity until the investment is derecognized or the investment is determined to be impaired. When designation of investments is changed to held for trading, the related unrealized gain/losses on these investments are recycled from equity and recognized in the consolidated income statement.

(c) Associates

Associates are entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting and are initially recognized at cost. The Group's investment in associates includes goodwill identified on acquisition, net of any accumulated amortization and impairment losses, if any. Under the equity method, investments in associate are carried in the consolidated balance sheet at cost plus post-acquisition changes in the Group's share of net assets of the associates. The consolidated income statement reflects the Group's share in the results of associates and the Group's share of post-acquisition movements in reserves, if any, is recognized in equity. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate.

KINGDOM HOLDING COMPANY
(A Saudi Joint Stock Company)
Notes to the interim consolidated financial statements
For the three-month period ended March 31, 2012 (unaudited)
(All amounts in Saudi Riyals thousands unless otherwise stated)

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Dilution gains and losses arising in investments in associates are recognized in the consolidated income statement.

(d) Investments in real estate

Real estate investments that are being developed are recorded at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less cost to complete, re-development and selling expenses. Investments in real estate are derecognized when either they have been disposed off or when the investment in real estate is permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gains or losses on the retirement or disposal of investments in real estate are recognized in the consolidated income statement in the period of the retirement or disposal.

2.5 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is considered the fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. Such intangibles are not amortized. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable.

2.6 Impairment

(a) Tangible and intangible assets

At each fiscal year end, the Group reviews the carrying amounts of its long term tangible and intangible assets to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Recoverable amounts are determined on the basis of value-in-use calculations. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. Impairment losses are recognized in the consolidated income statement.

(b) Financial assets

An assessment is made at each balance sheet date to determine whether there is objective evidence that a specific financial asset may be impaired. If such evidence exists, any impairment loss is recognized in the consolidated income statement. Impairment is determined as follows:

- (i) For assets carried at fair value, impairment is the difference between the carrying amount and fair value, less any impairment loss previously recognized in the consolidated income statement; and
- (ii) For assets carried at cost, impairment is the difference between carrying value and the present value of future cash flows discounted at the current market rate of return for a similar financial asset.

For impairment of available for sale investments, the unrealized gain or loss previously reported in shareholders' equity is included in the consolidated income statement.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but the increased carrying amount should not exceed the carrying amount that would have been determined, had no impairment loss been recognized for the assets or cash-generating unit in prior years. A reversal of an impairment loss is recognized as income immediately in the

KINGDOM HOLDING COMPANY
(A Saudi Joint Stock Company)
Notes to the interim consolidated financial statements
For the three-month period ended March 31, 2012 (unaudited)
(All amounts in Saudi Riyals thousands unless otherwise stated)

consolidated income statement. Impairment losses recognized on equity investments classified as available for sale and goodwill are not reversible.

2.7 Loans and bank borrowings

Bank borrowings and term loans are recognized initially at fair value, net of transaction costs incurred; and any differences between the proceeds (net of transaction costs) and the redemption value are recognized in the consolidated income statement over the period of the loan using the effective interest method. Loans are classified as current liabilities unless the Group has an unconditional right and intention to defer settlement of the liability for at least twelve months after the balance sheet date.

Borrowing costs directly attributable to the construction of qualifying assets, which are assets that necessarily take a substantial period of time to prepare for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. All other borrowing costs are recognized as an expense in the consolidated income statement when incurred.

2.8 Revenue

Hotel revenues are recognized when services are performed or when food and beverages are sold. Other revenues are recognized when services are provided and ultimate collection is reasonably assured. Management fees and other revenues from managed properties are recognized when performance conditions have been met, in accordance with the terms specified in the related management contracts.

Revenue from real estate leasing operations is recognized on accrual basis, effectively over the term of the lease. Revenue from sale of real estate is recognized upon the execution of sale contract and the delivery of the real estate, whichever comes last.

Dividend income is recognized when the right to receive the dividends is established. Commission income is recognized as the commission accrues.

2.9 Segmental reporting

(a) Business segment

A business segment is a group of assets, operations or entities:

- (i) engaged in revenue producing activities;
- (ii) results of its operations are continuously analyzed by management in order to make decisions related to resource allocation and performance assessment; and
- (iii) financial information is separately available.

(b) Geographical segment

A geographical segment is a group of assets, operations or entities engaged in revenue producing activities within a particular economic environment that are subject to risks and returns different from those operating in other economic environments.

2.10 Foreign currency translations

The interim consolidated financial statements are presented in Saudi Riyals, which is the Company's functional and Group's presentation currency. Each subsidiary in the Group determines its own functional currency, and as a result, items included in the financial statements of each subsidiary are measured using that functional currency.

At the subsidiary level, transactions in foreign currencies are initially recorded in the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the balance sheet date. All differences are taken to the consolidated income statement.

At the consolidation level, financial statements of foreign subsidiaries are translated into the Group's presentation currency using the exchange rate at each balance sheet date for assets and liabilities, and the average exchange rate for each period for revenues and expenses. Components of equity, other than retained

KINGDOM HOLDING COMPANY
(A Saudi Joint Stock Company)
Notes to the interim consolidated financial statements
For the three-month period ended March 31, 2012 (unaudited)
(All amounts in Saudi Riyals thousands unless otherwise stated)

earnings, are translated at the rate ruling at the date of occurrence of each component. Translation adjustments are recorded as a separate component of equity.

3 Available for sale investments

(a) Available for sale investments consist of the following:

	March 31, 2012	March 31, 2011
International	8,699,830	9,145,208
Local and regional	1,378,245	1,242,440
	<u>10,078,075</u>	<u>10,387,648</u>

(b) The movement in available for sale investments for the period ended March 31 is set out below:

	2012	2011
Cost:		
At the beginning of the period, net of impairment charge	21,548,703	21,442,800
Transfer to held for trading investments	(110,953)	(77,666)
At the end of the period	<u>21,437,750</u>	<u>21,365,134</u>
Unrealized loss:		
At the beginning of the period	(13,066,612)	(11,269,920)
Transfer to held for trading investments	(107,769)	-
Decrease in unrealized loss during the period, net	1,814,706	292,434
At the end of the period	<u>(11,359,675)</u>	<u>(10,977,486)</u>
Net carrying amount	<u>10,078,075</u>	<u>10,387,648</u>

The Company performs an assessment to determine whether the decline in value of its available for sale investments is temporary or non-temporary. Based on this assessment, management has concluded that such a decline is considered to be temporary. In reaching to this conclusion, management has considered several factors, including the financial performance of the investee, the fair value of investment, information from financial analysts about the forecasted market price, the Group's intent and ability to hold these investments until the market price recovers and its intent and ability to mitigate any potential impairment that could be incurred on such investments.

Management will continue to monitor and review its available for sale investments and assess the impact of changes in the factors referred to above to determine the need for any further impairment.

KINGDOM HOLDING COMPANY
(A Saudi Joint Stock Company)
Notes to the interim consolidated financial statements
For the three-month period ended March 31, 2012 (unaudited)
 (All amounts in Saudi Riyals thousands unless otherwise stated)

4 Investments in associates

The movement in investments in associates for the period ended March 31 is as follows:

	2012	2011
At the beginning of the period	17,203,912	16,690,681
Share in loss, net	(72,240)	(79,519)
Other movements	(114,789)	(56,847)
At the end of the period	17,016,883	16,554,315

5 Intangible assets

	March 31, 2012	March 31, 2011
Goodwill	1,538,699	1,712,957
Other intangible assets	67,475	124,436
	1,606,174	1,837,393

Other intangible assets principally include brand names and management contracts that relate to subsidiaries that operate hotel properties. Such intangibles have definite lives and are amortized over their economic useful lives. Amortization expense is reported in the consolidated income statement.

6 Bank borrowings and term loans

	March 31, 2012	March 31, 2011
<u>Current</u>		
Short-term loans	70,504	27,475
Revolving credit facilities	11,646	24,183
	82,150	51,658
Current portion of term loans	566,252	1,076,541
	648,402	1,128,199
<u>Non-current</u>		
Term loans	11,869,963	10,956,889
	12,518,365	12,085,088

Bank borrowings and term loans are obtained from various financial institutions and are principally secured by registered mortgage and liens over several properties, deed of support, order notes, promissory notes and pledge of certain shares that are held under available for sale investments. They carry borrowing costs at normal commercial rates.

During the three-month period ended March 31, 2012, the Group obtained bank borrowings and term loans of Saudi Riyals 195 million, net (2011: Saudi Riyals 25 million).

KINGDOM HOLDING COMPANY
(A Saudi Joint Stock Company)
Notes to the interim consolidated financial statements
